## Course description:

A day of intense, but fun training for those preparing to advance their rank! Light refreshments are provided at registration. The oral interview is as much art as it is technique. The easy part is knowing the information (internal), but the hard part is to articulate a thorough and confident presentation (external). Let us show you our industry unique tips, tricks, and insider information to help you bring your A-game to this highly competitive testing process. All ranks are welcome! Our curriculum is simple, effective, and easy to apply. We cover all aspects of the oral interview, provide incredible resources, and take the time to answer every question.

## Instructor:
