This 16-hour workshop is for sworn and civilian law enforcement supervisors and managers, including probation and corrections. Approximately 40% of students are professional (civilian) staff.

This workshop will teach you the concepts and skills to become an influential leader. A leader people trust, respect and willingly follow. As your influence grows, so does your ability foster collaboration and shape your organization's culture and work ethic. You will be provided with a variety of tools and approaches to effectively coach, counsel and correct subordinates. Of course, not everyone will respond to good leadership, so the workshop also addresses how to exercise authority through disciplinary measures as necessary.
